

# Education Justice Project Internship Application

Applications for Spring and Summer 2022 are due **March 1, 2022**. After we receive your form, an EJP representative will contact you to discuss the next steps. Thank you again.

**The mission of the Education Justice Project is to build a model college-in-prison program that demonstrates the positive impacts of higher education upon incarcerated people, their families, the communities from which they come, the host institution, and society as a whole.**

Thank you for your interest in an internship with the Education Justice Project. For over ten years, EJP has been offering academic programs to incarcerated individuals. More recently, we have started producing multiple reentry guides and hosting public events to promote awareness around the work we do as well as incarceration, criminal justice and related issues. There are many opportunities to get involved in worthy projects on campus and in the community. We are very grateful you have expressed an interest in our program.

We ask individuals to fill out this form if they're interested in becoming a part of a vibrant, collaborative, program that will allow people to meet individuals who share their concerns, learn skills that can be applied to future efforts, contribute to a meaningful cause, learn more about incarceration, criminal justice and related issues. Please complete it electronically and email this form to Jamie Hines, Operations Director, at [jlhines@illinois.edu](mailto:jlhines@illinois.edu), as that gives you space to provide comprehensive answers. We are interested in learning as much about you as we can at this stage.

Please be aware that our main criteria for involvement are seriousness of purpose and maturity. You don't need to be an expert on incarceration, but we expect you to be interested in learning more about it. Please feel free to visit our website to learn more about us and the work we do at <http://www.educationjustice.net>
